Virtual Classroom and Hybrid Days:

Our students have been working hard for very long days. On asynchronous days the older students who finish early have been helping the younger ones. They are very good at tutoring.

After a day on their computers the kids can be found relaxing. How do they do this?? By asking to go on the computer, the I-Pad, and the Play station! Such a different generation! Hopefully with the Spring coming they will get to go outside more after school work is done.
